

BUILD YOUR BACKPACK

Bridging The Meal Gap

Backpacks are a simple, effective tool to bridge the weekend or holiday gaps throughout the year.

Their sleek, slender design allows students the opportunity to discretely slip them in their school bags before they head home.

Fully Customizable

Create a program that fits your needs with an array of customizable elements. You have the ability to build menus, add on resealable features, select single versus family sizes, select educational themes, and more.
